

# PY 2006-2007

## End of Year Evaluation Report

### District 5

## Participant Demographics for District 5

### DEMOGRAPHICS

4,074 adults/parents and youth participated in programs in District 5. A sample of youth and adults served through program offerings completed demographic questionnaires.

#### Adult/Parent Demographics.

**Age.** Parent participants across program types (i.e., parent education, home visitation, fatherhood, and respite) had a modal age of 36. 10% were 18 and younger; 11% were 19-24; 18% were 25-30; 35% were 31-40; and 26% were over 40.

**Gender.** 28% percent of parent program participants were male and 72% were female.

**Ethnicity.** Parent participants were 59% Caucasian; 34% African American; 3% Hispanic; 2% Native American; 0.3% Asian American; and 2% selected "other" when asked ethnic background.

**Work Status.** For Parent participants (excluding students) over the age of 18, 50.4% reported working full-time, 14.3% reported working part-time, and 35.4% reported not working for pay.

**Education Level.** For Parent participants (excluding students) over the age of 18, 16.5% reported not completing high school; 31.6% reported completing high school or GED; 17.5% reported completing some college; 11.5% reported obtaining 2-year college/technical school degree; 17.8% reported completing a 4-year college degree; and 5% reported completing an advanced degree.

**Income Level.** For Parent participants (excluding students) over the age of 18, 53% reported a gross household income of less than \$25,000 a year. Specifically, 18% reported less than \$7000; 14% reported between \$7000 and \$13,999; 21%

reported between \$14,000 and \$24,999; 17% reported between \$25,000 and \$39,999; 19% reported between \$40,000 and \$74,999; and 11% reported more than \$75,000 gross household income.

#### Youth Demographics.

**Grade.** Demographic reports from youth across program types (i.e., school-based, non school-based, and mentoring) indicated that 0.5% were pre-school age; 1.4% were in grades K-2; 82.1% were in grades 3-5; and 16% were in grades 6-12. Note: Youth who participated in community awareness programs did not provide demographic information.

**Gender.** 52.5% of youth program participants were male and 47.5% were female.

**Ethnicity.** Youth program participants were 67% Caucasian; 25.7% African American; 3% Hispanic; 0.3% Native American; and 4% selected "other" when asked ethnic background.

## PARENT EDUCATION AND HOME VISITATION PROGRAMS

These programs provide parent education/home visitation through hospital visits, group education, and home visits. Program objectives focus on several key areas that research has shown can serve as protective factors and reduce the risk of child maltreatment: *use of support services, positive parenting skills and child development knowledge, positive view and knowledge of child, stress and anger management skills, understanding of and*

*knowledge of ways to respond to various forms of child maltreatment, use of informal supportive social networks, and medical care commitment.* A sample of participants (n = 318) responded to an assessment of 24 learning objectives. Analysis of paired-sample t-tests revealed **statistically significant (p < .001) improvements on the average level of commitment, skill, and knowledge in ALL targeted areas.**

### *KNOWLEDGE AND USE OF SUPPORT SERVICES*

#### **Q1 My knowledge of community resources where I can receive help**

74.1% of participants rated themselves as good/excellent **before** receiving program services.  
93.1% rated themselves as good/excellent **after** participation in the program.

#### **Q2 My commitment to using available social services that apply to me**

32.9% of participants rated themselves as good/excellent **before** receiving program services.  
94% rated themselves as good/excellent **after** participation in the program.

### *STRESS MANAGEMENT*

#### **Q1 My knowledge of ways to manage stress**

33% of participants rated themselves as good/excellent **before** receiving program services.  
90.9% rated themselves as good/excellent **after** participation in the program.

#### **Q2 My knowledge of ways to manage anger**

42.4% of participants rated themselves as good/excellent **before** receiving program services.  
94.6% rated themselves as good/excellent **after** participation in the program.

*PARENTING SKILLS AND CHILD DEVELOPMENT KNOWLEDGE*

**Q1 My knowledge of children's development at different ages**

49.4% of participants rated themselves as good/excellent **before** receiving program services.  
97.5% rated themselves as good/excellent **after** participation in the program.

**Q2 My knowledge of the best activities for my child based on his/her age**

48.5% of participants rated themselves as good/excellent **before** receiving program services.  
96.7% rated themselves as good/excellent **after** participation in the program.

**Q3 My knowledge of what parenting responses are best to use when my child is not behaving**

36.1% of participants rated themselves as good/excellent **before** receiving program services.  
94.2% rated themselves as good/excellent **after** participation in the program.

**Q4 My knowledge of what positive parenting involves**

53.5% of participants rated themselves as good/excellent **before** receiving program services.  
98% rated themselves as good/excellent **after** participation in the program.

**Q5 My ability to use several forms of positive discipline**

38.4% of participants rated themselves as good/excellent **before** receiving program services.  
95.3% rated themselves as good/excellent **after** participation in the program.

**Q6 My knowledge of nurturing behaviors**

68.6% of participants rated themselves as good/excellent **before** receiving program services.  
97.7% rated themselves as good/excellent **after** participation in the program.

*UNDERSTANDING OF VARIOUS  
FORMS OF CHILD MALTREATMENT*

**Q1 My knowledge of what sexual abuse of a child involves**

66.9% of participants rated themselves as good/excellent **before** receiving program services.  
95% rated themselves as good/excellent **after** participation in the program.

**Q2 My knowledge of how to respond to sexual abuse situations**

52.4% of participants rated themselves as good/excellent **before** receiving program services.  
92.4% rated themselves as good/excellent **after** participation in the program.

**Q3 My knowledge of what physical abuse of a child involves**

57.6% of participants rated themselves as good/excellent **before** receiving program services.  
95.7% rated themselves as good/excellent **after** participation in the program.

**Q4 My knowledge of how to respond to physical abuse situations**

57.6% of participants rated themselves as good/excellent **before** receiving program services.  
95.7% rated themselves as good/excellent **after** participation in the program.

**Q5 My knowledge of what emotional abuse of a child involves**

52.2% of participants rated themselves as good/excellent **before** receiving program services.  
94.9% rated themselves as good/excellent **after** participation in the program.

**Q6 My knowledge of how to respond to emotional abuse situations**

49.7% of participants rated themselves as good/excellent **before** receiving program services.  
94.5% rated themselves as good/excellent **after** participation in the program.

*INDIVIDUAL RISK OF  
MALTREATMENT*

**Q1 My ability to recognize when I am at risk for harming my child**

73.9% of participants rated themselves as good/excellent **before** receiving program services.  
98.8% rated themselves as good/excellent **after** participation in the program.

**Q2 My ability to stop myself when I am at risk for harming my child**

76.9% of participants rated themselves as good/excellent **before** receiving program services.  
98.8% rated themselves as good/excellent **after** participation in the program.

*POSITIVE VIEW AND  
KNOWLEDGE OF CHILD*

**Q1 My knowledge of my child's positive qualities**

64.6% of participants rated themselves as good/excellent **before** receiving program services.  
97.7% rated themselves as good/excellent **after** participation in the program.

**Q2 My knowledge of how to respond to my child's needs**

72.7% of participants rated themselves as good/excellent **before** receiving program services.  
98.8% rated themselves as good/excellent **after** participation in the program.

*USE OF INFORMAL SUPPORTIVE  
SOCIAL NETWORKS*

**Q1 My commitment to seek informal support (e.g., from friends, family) regularly**

46.3% of participants rated themselves as good/excellent **before** receiving program services.  
94.8% rated themselves as good/excellent **after** participation in the program.

**Q2 My knowledge of who to turn to in times of trouble**

46.3% of participants rated themselves as good/excellent **before** receiving program services.  
94.5% rated themselves as good/excellent **after** participation in the program.

*MEDICAL CARE COMMITMENT*

**Q1 My commitment to keeping my child up-to-date on required shots**

78% of participants rated themselves as good/excellent **before** receiving program services.  
97.7% rated themselves as good/excellent **after** participation in the program.

**Q2 My commitment to keeping my child current on well-baby check-ups**

79.1% of participants rated themselves as good/excellent **before** receiving program services.  
98% rated themselves as good/excellent **after** participation in the program.

## RESPIRE CARE PROGRAMS

These programs fund respite care services and provide parenting information for parents of special needs children. Program objectives focus on several key areas that can serve as protective factors and reduce the risk of child maltreatment: *use of support services, positive parenting skills and child development knowledge, positive view of child, stress and anger management skills, understanding of and knowledge of ways to respond to various*

*forms of child maltreatment, use of informal supportive social networks, and medical care commitment.* A sample of participants (n = 58) responded to an assessment of 20 learning objectives. Analysis of paired-sample t-tests revealed **statistically significant (p < .026) improvements on the average level of commitment, skill, and knowledge in ALL targeted areas.**

### *KNOWLEDGE AND USE OF SUPPORT SERVICES*

#### **Q1 My knowledge of community resources where I can receive help**

24.6% of participants rated themselves as good/excellent **before** receiving program services.  
84.2% rated themselves as good/excellent **after** participation in the program.

#### **Q2 My commitment to using available social services that apply to me**

40.3% of participants rated themselves as good/excellent **before** receiving program services.  
86.2% rated themselves as good/excellent **after** participation in the program.

### *USE OF INFORMAL SUPPORTIVE SOCIAL NETWORKS*

#### **Q1 My commitment to seek informal support (e.g., from friends, family) regularly**

42.1% of participants rated themselves as good/excellent **before** receiving program services.  
77.2% rated themselves as good/excellent **after** participation in the program.

#### **Q2 My knowledge of who to turn to in times of trouble**

51.8% of participants rated themselves as good/excellent **before** receiving program services.  
82.4% rated themselves as good/excellent **after** participation in the program.

### *PARENTING SKILLS AND CHILD DEVELOPMENT KNOWLEDGE*

#### **Q1 My knowledge of children's development at different ages**

53.4% of participants rated themselves as good/excellent **before** receiving program services.  
86.2% rated themselves as good/excellent **after** participation in the program.

#### **Q2 My knowledge of the best activities for my child based on age**

52.8% of participants rated themselves as good/excellent **before** receiving program services.  
90.9% rated themselves as good/excellent **after** participation in the program.

**Q3 My knowledge of what parenting responses are best to use when my child is not behaving**

61.4% of participants rated themselves as good/excellent **before** receiving program services.  
91.1% rated themselves as good/excellent **after** participation in the program.

**Q4 My knowledge of what positive parenting involve**

64.9% of participants rated themselves as good/excellent **before** receiving program services.  
94.8% rated themselves as good/excellent **after** participation in the program.

**Q5 My ability to use several forms of positive discipline**

56.4% of participants rated themselves as good/excellent **before** receiving program services.  
94.7% rated themselves as good/excellent **after** participation in the program.

*POSITIVE VIEW OF CHILD AND MEDICAL CARE COMMITMENT*

**Q1 My knowledge of my child's positive qualities**

70.2% of participants rated themselves as good/excellent **before** receiving program services.  
96.5% rated themselves as good/excellent **after** participation in the program.

**Q2 My commitment to keeping my child up-to-date on required shots**

90.9% of participants rated themselves as good/excellent **before** receiving program services.  
98.2% rated themselves as good/excellent **after** participation in the program.

**Q3 My commitment to keeping my child current on well-baby check-ups**

91% of participants rated themselves as good/excellent **before** receiving program services.  
100% rated themselves as good/excellent **after** participation in the program.

*UNDERSTANDING OF VARIOUS FORMS OF CHILD MALTREATMENT*

**Q1 My knowledge of what sexual abuse of a child involves**

73.7% of participants rated themselves as good/excellent **before** receiving program services.  
94.8% rated themselves as good/excellent **after** participation in the program.

**Q2 My knowledge of how to respond to sexual abuse situations**

66% of participants rated themselves as good/excellent **before** receiving program services.  
91.1% rated themselves as good/excellent **after** participation in the program.

**Q3 My knowledge of what physical abuse of a child involves**

73.7% of participants rated themselves as good/excellent **before** receiving program services.  
94.7% rated themselves as good/excellent **after** participation in the program.

**Q4 My knowledge of how to respond to physical abuse situations**

64.9% of participants rated themselves as good/excellent **before** receiving program services.  
92.9% rated themselves as good/excellent **after** participation in the program.

**Q5 My knowledge of what emotional abuse of a child involves**

59.7% of participants rated themselves as good/excellent **before** receiving program services.  
89.3% rated themselves as good/excellent **after** participation in the program.

**Q6 My knowledge of how to respond to emotional abuse situations**

57.9% of participants rated themselves as good/excellent **before** receiving program services.  
93% rated themselves as good/excellent **after** participation in the program.

*STRESS AND ANGER MANAGEMENT*

**Q1 My knowledge of ways to manage stress**

52.6% of participants rated themselves as good/excellent **before** receiving program services.  
89.5% rated themselves as good/excellent **after** participation in the program.

**Q2 My knowledge of ways to manage anger**

61.4% of participants rated themselves as good/excellent **before** receiving program services.  
91% rated themselves as good/excellent **after** participation in the program.

## FATHERHOOD PROGRAMS

These programs provide support to noncustodial fathers and encourage fathers to enhance their job skills, education, parenting knowledge, and involvement with their children, as well as to comply with child support obligations. Fathers meet with facilitators or case workers and other fathers and are involved in educational sessions that involve family activities that promote better father-child relationships. Program objectives focus on several key areas that facilitate father involvement and child support compliance and that promote child well-being: *cooperativeness with CSE and with the child's other parent, goals for work and education commitment, use of support services,*

*positive parenting skills and child development knowledge, positive view and knowledge of child, stress and anger management skills, understanding of and knowledge of ways to respond to various forms of child maltreatment, use of informal supportive social networks, and medical care commitment.* A sample of fathers (n= 86) responded to an assessment of 24 learning objectives. Analyses of paired-sample t-tests revealed **statistically significant ( $p < .001$ ) improvements on the average level of commitment, skill, and knowledge in ALL targeted areas.**

### *COOPERATION WITH CHILD SUPPORT ENFORCEMENT*

#### **Q1 My commitment to maintain civil interactions with child support enforcement personnel**

34.1% of participants rated themselves as good/excellent **before** receiving program services.  
79.8% rated themselves as good/excellent **after** participation in the program.

### *KNOWLEDGE AND USE OF SUPPORT SERVICES*

#### **Q1 My knowledge of community resources where I can receive help**

23.4% of participants rated themselves as good/excellent **before** receiving program services.  
66.6% rated themselves as good/excellent **after** participation in the program.

*WORK, EDUCATION, AND CHILD SUPPORT COMMITMENT*

**Q1 My commitment to making full child support payments each month**

26.3% of participants rated themselves as good/excellent **before** receiving program services.  
75.7% rated themselves as good/excellent **after** participation in the program.

**Q2 My intention of finishing high school**

38.2% of participants rated themselves as good/excellent **before** receiving program services.  
57.9% rated themselves as good/excellent **after** participation in the program.

**Q3 My intention of going to vocational training and/or college**

43.9% of participants rated themselves as good/excellent **before** receiving program services.  
62.5% rated themselves as good/excellent **after** participation in the program.

**Q4 My intention of working at least 20 hours in a week for three months in a row**

70.8% of participants rated themselves as good/excellent **before** receiving program services.  
86.9% rated themselves as good/excellent **after** participation in the program.

**Q5 My commitment to staying in school**

40.8% of participants rated themselves as good/excellent **before** receiving program services.  
61.7% rated themselves as good/excellent **after** participation in the program.

*POSITIVE VIEW AND KNOWLEDGE OF CHILD*

**Q1 My knowledge of my child's positive qualities**

41.3% of participants rated themselves as good/excellent **before** receiving program services.  
69.7% rated themselves as good/excellent **after** participation in the program.

**Q2 My knowledge of how to respond to my child's needs**

45.7% of participants rated themselves as good/excellent **before** receiving program services.  
77.8% rated themselves as good/excellent **after** participation in the program.

*PARENTING SKILLS AND CHILD DEVELOPMENT KNOWLEDGE*

**Q1 My knowledge of children's development at different ages**

38.8% of participants rated themselves as good/excellent **before** receiving program services.  
76.3% rated themselves as good/excellent **after** participation in the program.

**Q2 My knowledge of the best activities for my child based on his/her age**

34.2% of participants rated themselves as good/excellent **before** receiving program services.  
77.1% rated themselves as good/excellent **after** participation in the program.

**Q3 My knowledge of what parenting responses are best to use when my child is not behaving**

37.6% of participants rated themselves as good/excellent **before** receiving program services.  
73.4% rated themselves as good/excellent **after** participation in the program.

**Q4 My knowledge of what positive parenting involves**

30.3% of participants rated themselves as good/excellent **before** receiving program services.  
80% rated themselves as good/excellent **after** participation in the program.

**Q5 My ability to use several forms of positive discipline**

40.7% of participants rated themselves as good/excellent **before** receiving program services.  
71.2% rated themselves as good/excellent **after** participation in the program.

**Q6 My knowledge of nurturing behaviors**

32.3% of participants rated themselves as good/excellent **before** receiving program services.  
80% rated themselves as good/excellent **after** participation in the program.

*INDIVIDUAL RISK OF MALTREATMENT*

**Q1 My ability to recognize when I am at risk for harming my child**

74.6% of participants rated themselves as good/excellent **before** receiving program services.  
91.6% rated themselves as good/excellent **after** participation in the program.

**Q2 My ability to stop myself when I am at risk for harming my child**

72.9% of participants rated themselves as good/excellent **before** receiving program services.  
93.1% rated themselves as good/excellent **after** participation in the program.

*INVOLVEMENT WITH CHILD AND FAMILY*

**Q1 My commitment to being around my child at least a few times a week**

58.2% of participants rated themselves as good/excellent **before** receiving program services.  
81.9% rated themselves as good/excellent **after** participation in the program.

**Q2 My commitment to spending at least 1 day a week doing a family activity**

51.2% of participants rated themselves as good/excellent **before** receiving program services.  
75.9% rated themselves as good/excellent **after** participation in the program.

**Q3 My ability to establish and maintain a relationship with my child**

51.8% of participants rated themselves as good/excellent **before** receiving program services.  
82.3% rated themselves as good/excellent **after** participation in the program.

*CO-PARENTING RELATIONSHIP*

**Q1 My commitment to working cooperatively with my child's other parent**

30.6% of participants rated themselves as good/excellent **before** receiving program services.  
61.2% rated themselves as good/excellent **after** participation in the program.

**Q2 The quality of my relationship with my child's other parent**

26.5% of participants rated themselves as good/excellent **before** receiving program services.  
51.8% rated themselves as good/excellent **after** participation in the program.

**Q3 My commitment to avoid the occurrence of unplanned or repeat pregnancy**

55.3% of participants rated themselves as good/excellent **before** receiving program services.  
83.9% rated themselves as good/excellent **after** participation in the program.

## YOUTH PROGRAMS K-5<sup>th</sup> GRADE

Youth around the state were served through these programs that included a variety of school-based, non school-based/after school, and mentoring programs. These programs vary in their emphasis, but all are focused on reducing risks for children and enhancing their well-being. Program objectives include: *social skill development, emotion identification and regulation, improved abuse awareness, increased cooperative behavior,*

*enhanced assertiveness, enhanced self-confidence.* A sample of participating youth in grades K-5 (n = 180) completed retrospective pre/post questionnaires to assess 13 learning objectives. Analyses of paired-sample t-tests revealed **statistically significant (p < .01) improvements on the average level of knowledge in ALL targeted areas.**

### *SOCIAL SKILLS*

#### **Q1 How much knowledge about how to get along with other people**

55% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
80.9% rated themselves as having a lot of knowledge **after** participation in the program.

#### **Q2 How much knowledge about how to be a friend**

75.4% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
85% rated themselves as having a lot of knowledge **after** participation in the program.

#### **Q3 How much knowledge about how to make friends**

62% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
74.4% rated themselves as having a lot of knowledge **after** participation in the program.

### *ABUSE AWARENESS*

#### **Q4 How much knowledge about good touch and bad touch**

64.1% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
87.7% rated themselves as having a lot of knowledge **after** participation in the program.

### *ASSERTIVENESS*

#### **Q5 How much knowledge about how to tell people what I really want**

37.6% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
85.3% rated themselves as having a lot of knowledge **after** participation in the program.

#### **Q6 How much knowledge about how to get help if people are being mean to me**

49.7% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
77% rated themselves as having a lot of knowledge **after** participation in the program.

*SELF-CONFIDENCE*

**Q7 How much knowledge about what I am really good at**

71.5% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
83.9% rated themselves as having a lot of knowledge **after** participation in the program.

*COOPERATIVE BEHAVIOR*

**Q8 How much knowledge about how to be good and keep out of trouble**

58.8% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
80.9% rated themselves as having a lot of knowledge **after** participation in the program.

**Q9 How much knowledge about how to choose the right thing to do**

52.8% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
74.3% rated themselves as having a lot of knowledge **after** participation in the program.

*EMOTION IDENTIFICATION AND REGULATION*

**Q10 How much knowledge about how to know when I am sad, scared, or happy**

58.8% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
81.5% rated themselves as having a lot of knowledge **after** participation in the program.

**Q11 How much knowledge about how to know when others are sad, scared, or happy**

32.1% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
67.5% rated themselves as having a lot of knowledge **after** participation in the program.

**Q12 How much knowledge about how to help others when they are sad, lonely or scared**

40.5% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
67.5% rated themselves as having a lot of knowledge **after** participation in the program.

**Q13 How much knowledge about how to control my angry or mad feelings**

30.7% of participants rated themselves as having a lot of knowledge **before** receiving program services.  
59.6% rated themselves as having a lot of knowledge **after** participation in the program.

## YOUTH PROGRAMS 6<sup>th</sup>-12<sup>th</sup> GRADE

Youth around the state, in grades 6 through 12, also were served through school-based, non school-based/after school, and mentoring programs. These programs vary in their emphasis, but all are focused on reducing risks for children and enhancing their well-being. Program objectives include: *improved social competence, improved emotion knowledge, improved abuse awareness and resourcefulness, increased cooperative behavior, enhanced commitment to educational*

*goals, cooperation with authorities, and avoidance of delinquent and risky behaviors.* A sample of participating youth in grades 6-12 (n = 256) completed retrospective pre/post questionnaires to assess 24 learning objectives. Analyses of paired-sample t-tests revealed **statistically significant (p < .001) improvements on the average level of knowledge, ability, or commitment in ALL targeted areas.**

### SOCIAL COMPETENCE

#### Q1 My ability to handle anger

35.4 % of participants rated themselves as good/excellent **before** receiving program services.  
82.9% rated themselves as good/excellent **after** participation in the program.

#### Q2 My ability to work out conflict with others

41% of participants rated themselves as good/excellent **before** receiving program services.  
80.4% rated themselves as good/excellent **after** participation in the program.

#### Q3 My ability to clearly communicate my ideas or intentions

51.2% of participants rated themselves as good/excellent **before** receiving program services.  
85% rated themselves as good/excellent **after** participation in the program.

#### Q4 My ability to develop and maintain friendships with peers

68.2% of participants rated themselves as good/excellent **before** receiving program services.  
89.5% rated themselves as good/excellent **after** participation in the program.

#### Q5 My ability to be supportive toward others

63.8% of participants rated themselves as good/excellent **before** receiving program services.  
90.2% rated themselves as good/excellent **after** participation in the program.

#### Q6 My knowledge of how to make good decisions

47.6% of participants rated themselves as good/excellent **before** receiving program services.  
91.1% rated themselves as good/excellent **after** participation in the program.

#### Q7 My ability to recognize other people's positive qualities

59.1% of participants rated themselves as good/excellent **before** receiving program services.  
86.9% rated themselves as good/excellent **after** participation in the program.

- Q8 My knowledge of the best way to respond to another person's emotions and/or feelings**  
51% of participants rated themselves as good/excellent **before** receiving program services.  
82.8% rated themselves as good/excellent **after** participation in the program.

### *ABUSE AWARENESS AND RESOURCEFULNESS*

- Q1 My ability to recognize abuse and/or neglect**  
71.2% of participants rated themselves as good/excellent **before** receiving program services.  
90.8% rated themselves as good/excellent **after** participation in the program.
- Q2 My commitment to telling school and/or agency staff about abusive and/or neglectful situations**  
59.1% of participants rated themselves as good/excellent **before** receiving program services.  
82% rated themselves as good/excellent **after** participation in the program.
- Q3 My knowledge of where to get help for a situation of abuse and/or neglect**  
62.7% of participants rated themselves as good/excellent **before** receiving program services.  
89.1% rated themselves as good/excellent **after** participation in the program.

### *COOPERATIVE BEHAVIOR*

- Q1 My ability to keep my behavior within acceptable limits, so that I do not get into trouble**  
34.5% of participants rated themselves as good/excellent **before** receiving program services.  
86.9% rated themselves as good/excellent **after** participation in the program.
- Q2 My knowledge of how to get along with other people**  
60.7% of participants rated themselves as good/excellent **before** receiving program services.  
88.3% rated themselves as good/excellent **after** participation in the program.

### *EMOTION KNOWLEDGE*

- Q1 My ability to accurately label my own emotions**  
56.5% of participants rated themselves as good/excellent **before** receiving program services.  
87.3% rated themselves as good/excellent **after** participation in the program.
- Q2 My ability to accurately label other people's emotions**

# The Department of Child Abuse and Neglect Prevention The Children's Trust Fund

2006-2007

The Auburn University Evaluation Team would like to express their sincere appreciation to all the CTF Grantee Program personnel for their dedication, cooperation, and conscientious efforts in gathering valid information and data that made possible this documentation of program impact in our communities and across the State. You have every reason to be proud of the difference you are making in the lives you touch. We are inspired by the work that you do!

We would also like to thank our colleagues at the Children's Trust Fund – all the administrative staff, field directors, and division directors - particularly, the incomparable Marian Loftin, Executive Director, Paul Smelley, Deputy Director, Vicki Cooper-Robinson, Division Director, and Stan Landers, Division Director - for their untiring support of our team in this “adventurous” first year of a systematic evaluation of nearly 200 unique community programs! It is our privilege and pleasure to work for you and with you. This has been collaboration at its best. We are invested in providing meaningful and useful information for grantees, the CTF staff and Board, and CTF funding sources that show the important benefits for participants in CTF-funded programs. It is our hope that the findings of this report will be helpful in your continued efforts to expand the outreach of CTF-funded programs in pursuit of your mission: To Prevent Child Abuse and Neglect in the State of Alabama. Your dedication to the work of strengthening our communities by strengthening our families is unparalleled.
